

Example

- Having a flexible note-keeping system is important^[1]
- It's pretty easy to implement with Typst^[2]
- Everyone really likes the name “Typst”^[1]

[1] Citation needed

[2] Fact

These notes won't be printed on this page, so they accumulate onto next page.

- Hello World^[3]
- Foo Bar^[4]

- Orange^[5]
- Blue^[5]
- All colors are great^[6]

[3] Your first program

[4] Does not serve beverages

[5] A Color

[6] Citation needed

Footnotes

It is of course also possible to place the notes *in* the page footer. This is the way to implement footnotes.

- Black^[7]
- White^[7]

[7] Debateably a color

- Orange^[8]
- Blue^[8]
- Purple^[9]

[8] A Color

[9] Also a color

Note groups

This page still has footnotes (using the default note group) but we can also name a new group for custom notes.

- This is in it's own group^[1]
- Regular footnote here^[10]
- Same custom note^[1]

[a.] Custom

[10] Regular footnote
